

Hello, Fallout!

You don't want to live like I do
Barely eating, breathing poison
Hide my face, 'cause it's burned!
Innards are achurn
Crawl around in despair
Never breathing fresh air

Fire all our nukes at them
Kill 'em the worst!
Fire all our nukes at them
Just wait till I'm dead first!

We don't have a United Nation
There's no food here but radiation
When I walk around outside
Ultraviolet surprise
Don't want to see the sun
Nowhere left to run.

Now we live in grave disorder
There's no question the war is over
Now I sift for treasure
Time is what I measure
Thought I was wise
Boy, was I surprised
