

## **MAN UP**

She's the hottest girl he'll ever get  
So what If she treats him like shit  
Yea sometimes she breaks it off so  
She can be with other people  
He walks around in a daze  
His eyes are aglaze

**Man Up!**  
**Show some pride**  
**Look at your self!**

Breaking up is hard to do  
I guess they'd rather take abuse  
Their friends, they leave them all behind  
They used to hang out all the time

**Man Up!**  
**Show some pride**  
**Look at your self!**  
**(and now) you're pussy whipped!**

When she fires you from her life again  
To come around tryin to make up ground again  
See, I've moved on, I've got new friends now  
Guess I was the only one who really knew how

Tough choices are what life is made of  
No guidance to help pull the wool off  
A couple of times helps learn a lesson  
I guess you'd rather keep on guessin

**Man Up!**  
**Show some pride**  
**Look at your self!**  
**(and now) you're pussy whipped!**

When she fires you from her life again  
To come around tryin to make up ground again  
See, I've got new friends now  
Guess I was the only one who really knew how
